

Marquette County Solid Waste Management Authority

Wastewater Treatment Plant Design

REQUEST FOR INFORMATION (RFI)	
RFI #: (Office Use) RFI #2	SUBMITTED TO: Brad Austin, Director of Operations
DATE: 11/30/22	Marquette County Solid Waste Management Authority
NEEDED BY: 12/4/22	SUBMITTED BY:
PROJECT: MCSWMA Wastewater Treatment Plant	Brett A. Schwenke, NTH Consultants bschwenke@nthconsultants.com
PROJECT #:	
RFI DESCRIPTION	
<p>Please confirm that the following information will be available and will be provided once the design effort gets underway:</p> <ol style="list-style-type: none"> 1. As-builts drawings for the leachate collection system from the system manholes to and including the lagoons, stormwater ponds, and discharge system. 2. Landfill license application including all drawings. 3. Please confirm the present on-site and locations and elevations/datums will be provided once the design effort gets underway: 4. Design team will need protected/established benchmarks/hubs for use by a surveyor in developing a focused topo map for future-new infrastructure and the treatment building.

RESPONSE TO RFI	
<ol style="list-style-type: none"> 1. All as-built drawings will be available to the design engineer. 2. The current Landfill License Application will be available to the design engineer. 3. There are eight permanent survey control point monuments located around the perimeter of the landfill. Control point coordinates and elevations will be provided to the design engineer. 4. MCSWMA has been in contact with a local Registered Land Surveyor (RLS) to perform an in-depth topographic survey of the proposed WWTP site, including all lagoons, manholes, structures, etc. Results of this survey will be provided to the design engineer.
